Allstate
for the arts.

The founders of Allstate Surfaces were poets, musicians and photographers. Our commitment to the arts is ever present in our day-to-day lives.

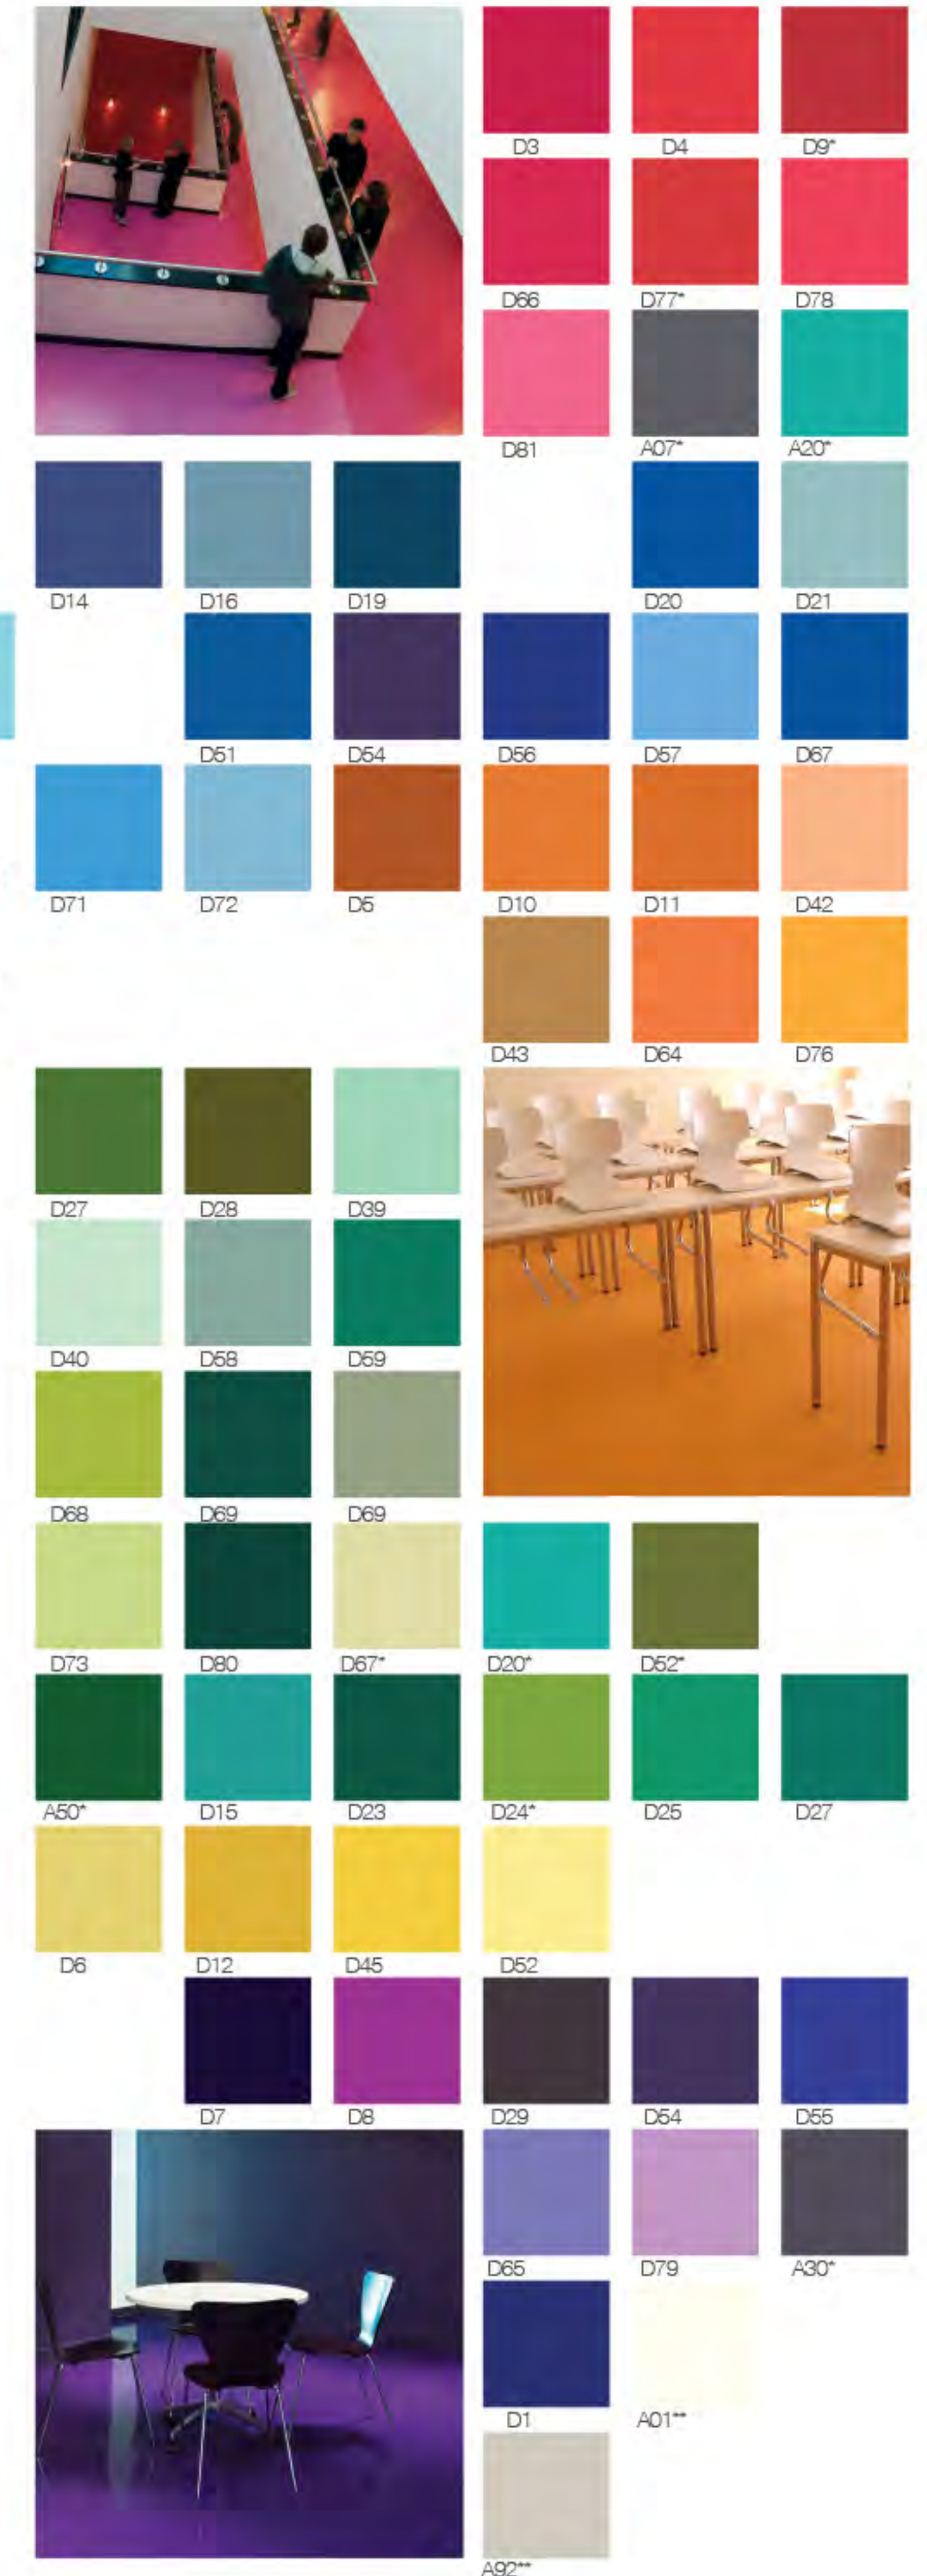

Having been students of the arts, we understand the struggle to be represented and recognized. Therefore Allstate has implemented its "Allstate for the Arts" program. We are using our footprint to expose more people to our favorite artists. The cover and art in this catalog is done by San Francisco artist, Derek Lynch. Taken from his series of Botanicals we hope that you come to appreciate his art like we do.

Derek's work can be found at derekjameslynch.com

Use Colors and Same Gauges to Mix and Match Floor Tile, Stairtread and Wallbase

No limits to design ideas, with hundreds of colors to choose from. All our tiles are oversized and have a matching wallbase. Choose a matching Brasilia Stairtread that adjoins with Belem tile.

Our textured Brasilia and Belem Tiles are oversized for fewer seams and less waste. For a smooth look, choose Uni Smooth colors or Curitiba's soft textured finish.

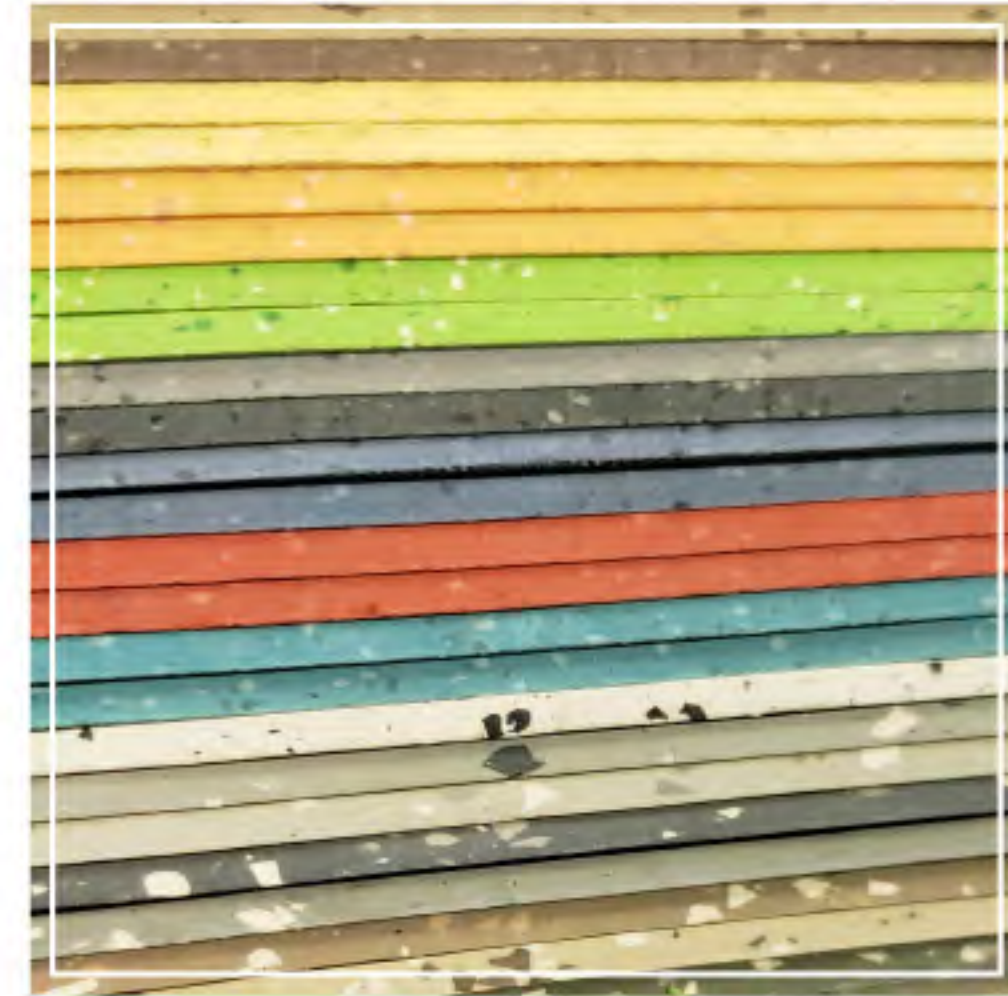

- **Conforms to GDPH standards**
- **PVC & Phthalate Free**
- **Homogeneous Construction**
- Soft Underfoot
- Recyclable
- Easy to Clean and Maintain
- Made in U.S.A.

Perfect for Assisted Living, Education, Healthcare, Sports Clubs

Allstate ReNew Rubber Flooring is a homogenous floor that is produced from post-consumer rubber, combined with EPDM high color rubber granules.

Offering superior ergonomics and acoustical performance, ReNew is a low vibration floor that helps reduce foot and rolling traffic noise and offers outstanding wet or dry slip resistance. The loose lay interlock tile can be installed over older floors and below grade.

- Homogenous
- Noise reducing
- Slip resistant
- Available in roll or tile (depending on color)
- Ergonomic, comfortable underfoot
- Hi Bounce back – Resilient underfoot
- 9mm Loose lay tile, can be installed quickly & without glue
- Made in the USA
- Upcycled product – Reduces the waste stream

Quartz Tile/MQT

20 COLORS

DURABLE

Long Lasting

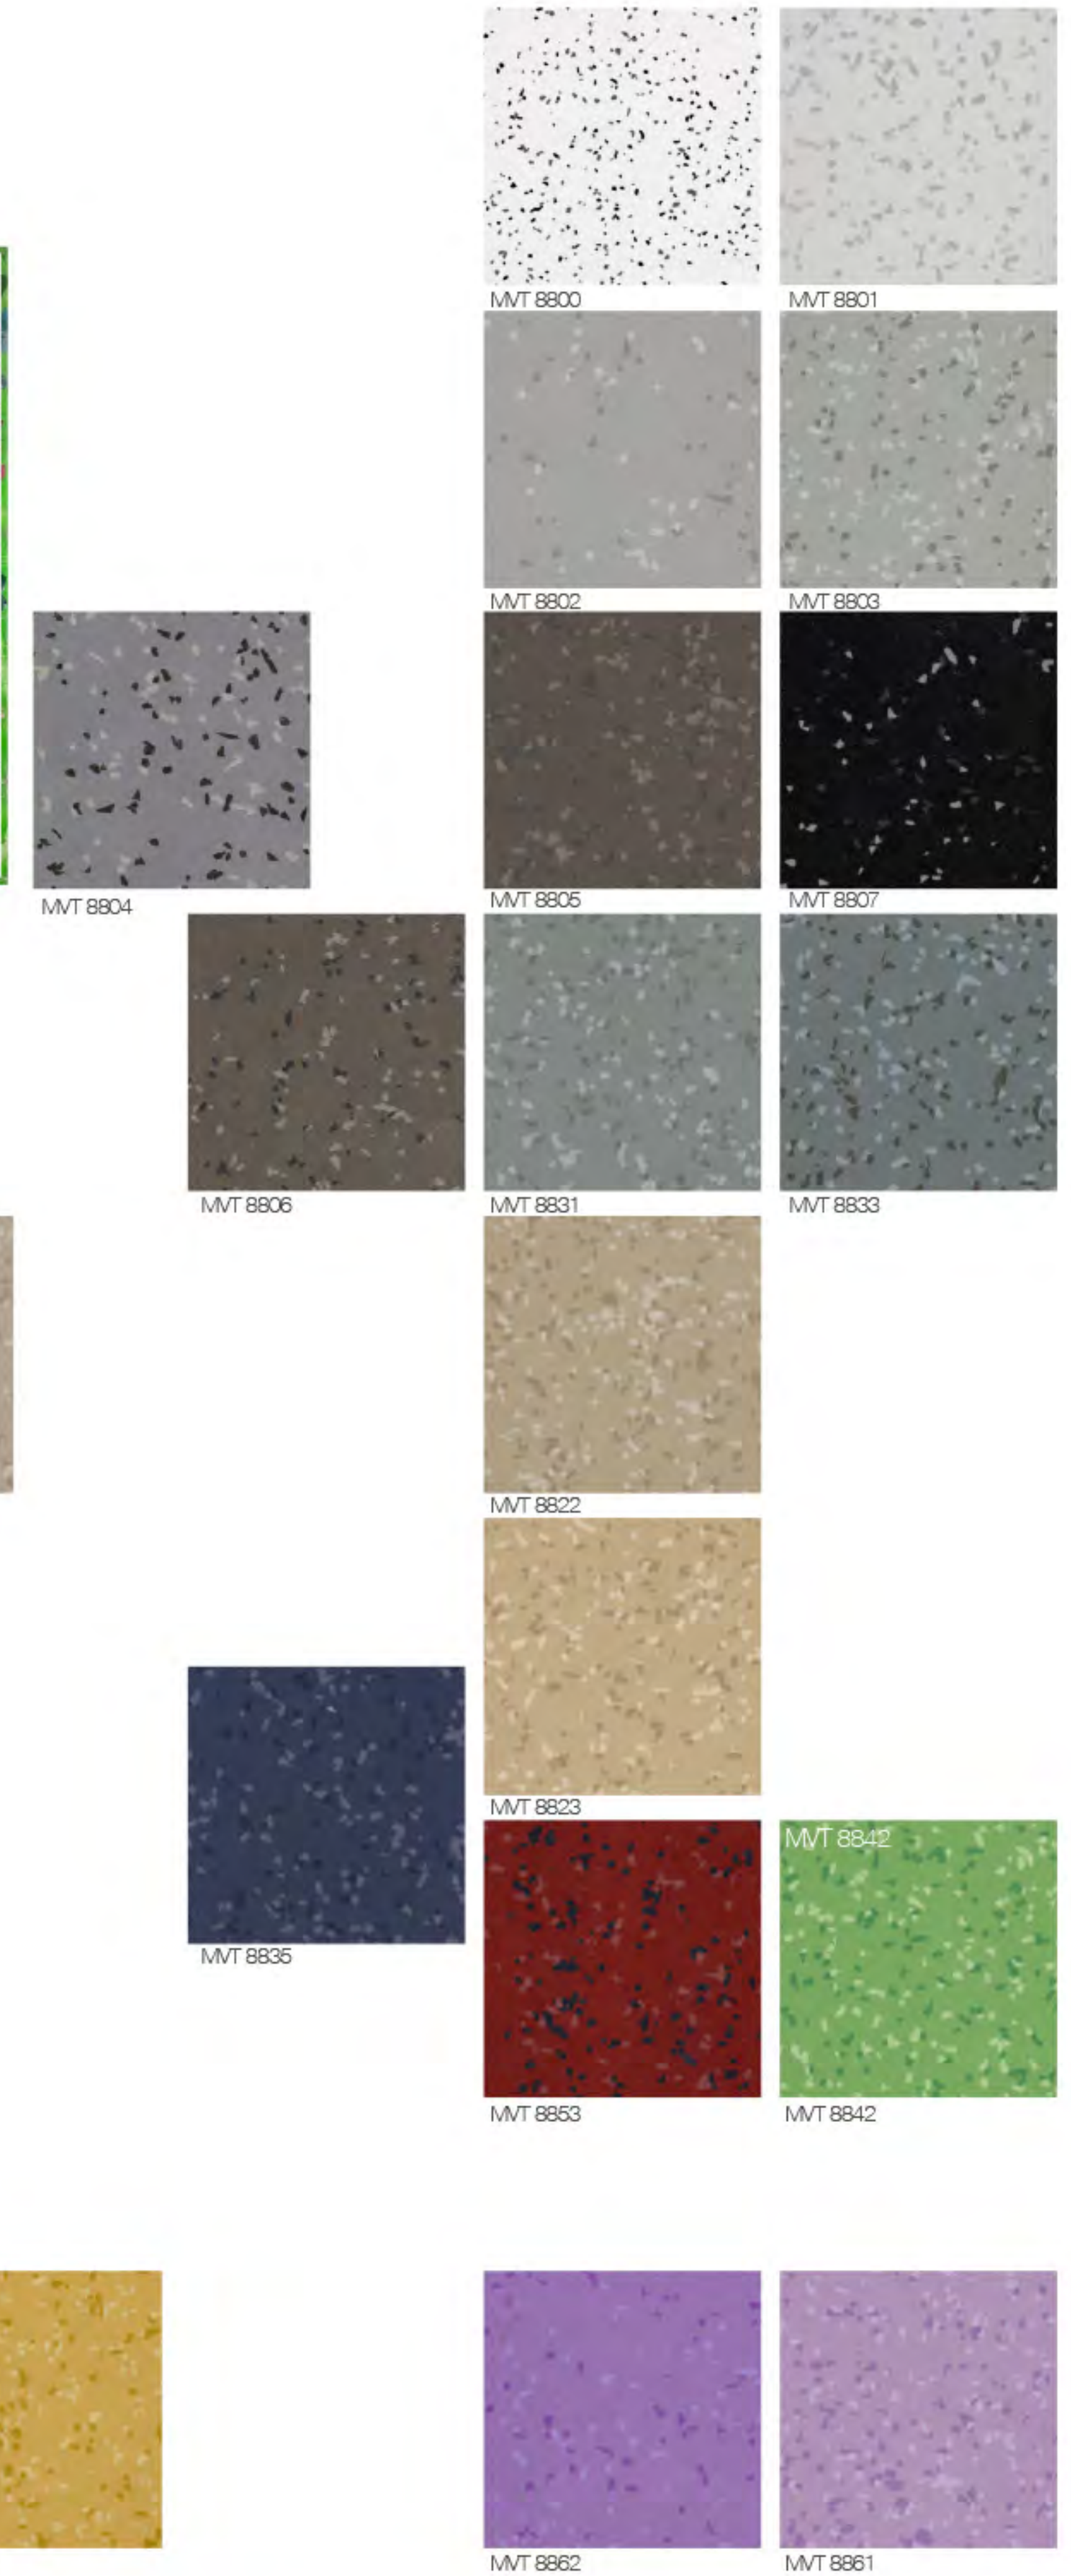

AVAILABLE IN 12" X 12" & 24" X 24" X 2MM TILES

3500 PSI Load Limit – Compression Molded for Heavy Traffic Areas

An industry standard since 1985, Allstate Quartz Tile (MQT) is compression molded to stand up against heavy traffic – even withstand forklift traffic. And our MQT is densely structured, making it less porous. This is the hardest working floor available on the market. PUR finished so it is occupancy ready and permanently sealed, these tiles can still look new after 20 years.

- 70% Natural – 100% Beautiful
- 3rd Party "Certified Green" by MAS Labs – Low VO
- Phthalate Free – 6% Bio-Based Content/Plasticizer
- LEED v4 EQ Credit
- Conforms to CDPH standards
- MAS Certified & Meets CHPS Standards
- CA #1350 VOC Test – Pass: Standard Method V1.1
- CA – Collaborative for High Performance Schools (CHPS), EQ 7.1.2 – Pass
- 20 Year Warranty

Homogeneous Cork Tile

3 COLORS

Easy Installation & Maintenance

AVAILABLE IN 12" X 12" TILES • 8MM THICK

100% Bio-Based Sustainable Flooring

Cork floors are not only beautiful, but are constructed from a natural, sustainable resource. Quiet and warm underfoot, cork flooring is a great durable surface with a natural cellular construction. This means it has the ability to bounce back from typical traffic loads. Cork flooring can also assist in acoustic control, minimizing echo and noise levels.

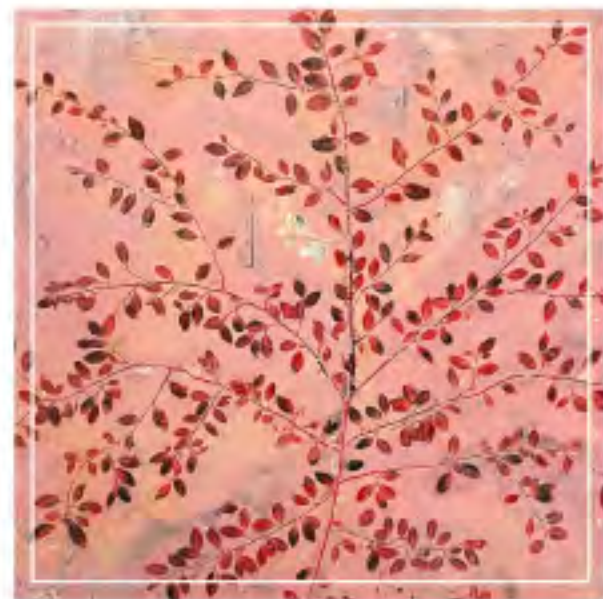

- **Homogeneous Construction**
- **GreenGuard Gold™ Certified**
- Sourced From A Rapidly Renewable Resource
- Completely Biodegradable
- Passes ASTM F925 Chemical Resistance
- Passes ASTM F970 Static Load Limit 250 lbs.
- Assists With Thermal Insulation
- 15 Year Limited Warranty
- Meets BUY USA Standards

More than **60** years of quality floors.
